

# Our aim is to 'make accounting a breeze'

Welcome to Breeze Accounting, we have been providing professional, expert and accurate advice to client's through-out the North West for many years now. Our friendly and proactive approach sets us apart from other accountants, we like to keep things simple and no question is a silly question in our mind!

Our aim is to 'make accounting a breeze' for all our clients - whether you are a sole trader business, a large enterprise or an individual just needing a tax return. As well as our expertise we can offer our online bookkeeping software to make managing your business easier.

We work closely with our clients and act for a broad range of business and personal clients.

## OUR TEAM

We firmly believe that the "TEAM" – us AND you – will always achieve more together. We take a slightly different view to most other firms when it comes to the 'TEAM'. You see, our view is simple: the TEAM comprises of US AND YOU, not just us.

That's why we work so hard to build a solid relationship with you and all our other clients. It's what helps set us apart from all other accountancy firms. In fact the TEAM ETHOS we work to is the key ingredient in forging a successful relationship with you.

Apart from the more general accountancy services we can also assist you with business development and specialist tax services.
