

RAMSBOTTOM GLASS

Windows • Doors • Conservatories

Ramsbottom Glass & Glazing Ltd is a family run business. We manufacture and install uPVC windows, doors and conservatories throughout Ramsbottom, Bury and Lancashire.

We have been trading here in the centre of Ramsbottom for over 25 years and offer a full range of products and services including energy efficient windows and glazing, uPVC and composite doors, French doors, bi-folding doors, roof lanterns and more.

FRAMES

We offer an extensive range of frames for doors, windows and conservatories using the finest materials including mahogany and golden oak.

We know everyone has different tastes, so in order to cater to everyone's needs we provide you with an exceptional range of styles and colours to satisfy all of our customers.

All our windows are internally glazed for added security with multi-point locking systems, so for window frame manufacturers in Ramsbottom, get in touch.

WINDOWS

Windows are a major feature of your home providing: light, ventilation, protection from the elements, security and sound control.

Great looking windows can completely transform the look of your home, so it pays to choose wisely and fit the best windows your budget can afford.

Whatever the style of your home, or the idea you have in mind for new windows, why not talk to us and use our expertise to help you make the best possible choice?

DOUBLE GLAZING

If you are considering window replacement, under building regulations you are required to replace any existing windows with a double glazed window unless the property is listed.

Double-glazing will save energy, thus saving money on fuel costs, as well as reducing your carbon footprint.

Simply put – it will also make your home a more comfortable place to live.

GLASS

From obscured patterned glass, leaded designs, Georgians, coloured glass and bevels – there's no excuse not to find what you're looking for.

To help you in styling your new windows, we offer a range of pre-set designs and a full bespoke service to cater for any of your own ideas or specific needs.

With such a range of choice, sometimes it can be hard to know just what's right for you and your home. Our expert design consultants will help you to choose the right combination for your home, be that a traditional period property, or something a little more modern.
