

Why choose Suzanne Clark Photography?

I always explain to my wedding clients, there are three things you get to keep from your wedding day and they are your rings, your spouse and your wedding photos.

Everyone has different priorities when it comes to their wedding and it's a very personal choice but I always feel that your photographs are so important. They are your memories in the years to follow, they are the memories you will show your children and your grandchildren.

That is why it's so important to know what style of photographer you are looking for as we aren't all the same.

Fine art, reportage, editorial, cinematic, traditional, documentary there are lots of different kinds and it's all down to personal choice. My style would be described as bright, fun and full of emotion with a mix of documentary and posed. I love to capture the magic as it happens, with a bit of fun thrown in for good measure but my main aim is to document the day.

I specialise in wedding photography and average around 40 weddings a year, that's a lot of experience when it comes to understanding what it takes to best capture your special day.

To accompany my wedding photography packages, I've expanded my services to include high definition videos, and my knowledge allows me to understand how things flow on your 'big day' being in the right place at the right time to capture all those 'special' moments.
