

EASIWFT™

The Hair Extension Holder

Wash, Dry, Style & Store Your Hair Extensions

We all love our hair extensions...that amazing feeling you get when you put them in, it defo makes me feel more fierce and mega confident. BUT...hair extensions need love too, so make sure you reciprocate that love by looking after your extensions.

Firstly storing them correctly is key. The thing is if they are not kept straight they are going to knot and need brushing an awful lot...this isn't great for your extensions. Unnecessary brushing is a big no no, the more brushing the more hair your extensions will lose. So keep them stored on an Easiweft.

What people say about our revolutionary styling station

"I used to trap my extensions in my drawers or attach them to a coat hanger but they constantly pulled the drawer open or dropped off the hanger as I tried to curl or straighten them. Now I have my Easiweft, it saves me so much time and effort and my extensions are lasting so much longer...love love love it."

"I can't believe I have struggled for so long without having the Easiweft in my life! I used to try and dry my clip-in hair extensions in mid air and they would get tangled up and take for ever to dry properly. I used to trap my extensions in my drawers so I didn't have to ask my brother to hold them for me. I honestly don't know what I did without it!"

"Used the Easiweft for the first time today when fitting Easilocks I-tips and it has literally changed my life!!! It's so easy to use and makes everything so much quicker! Cannot wait to use it with tapes and wefts and will definitely be using it every time! LOVE!!"
